

ESCAPE FROM PAPER REPORTS!

NOW distribute your payroll reports to managers online.

AVAILABLE

- Online access to payroll data 24/7 from any location
- Customized to bring data from multiple sources together in a single reporting environment
- Financial managers gain valuable insight into the health of their business with data and drill down capability
- Payroll and HR Managers spend less time searching for current data, answering questions, and compiling reports
- Flexibility to report on data from any time frame — even across multiple years
- Quick Labor Cost Analysis — payroll reports that provide department, account, or job breakdown of labor costs — in summary or in detail

DELIVERABLE

- Automatic notification system available through Insight by e-Mail provides direct payroll and HR related updates to managers
- Powerful search engine and flexible reporting formats provide instant answers to personnel or HR cost questions
- Role-based login access allows supervisors to only view and report on appropriate data
- Increased security for all communication and storage of employee information

PRACTICAL

- Effortless generation of reports using data from any combination of date ranges, locations, departments, and employee classifications
- Intuitive — Easy to implement and adopt
- Hosted by Insight e-Tools so IT and accounting staff don't have to implement a new system
- Export directly to Excel, PDF, or Comma Separated Value (CSV)
- Affordable pricing on a subscription basis

**Go Green with
Insight e-Tools
Online Reporting**

“With Insight e-Tools we were finally able to stop the paper delivery, increase security, lower shipping and storage costs, and provide live data that could be manipulated to help us get out of the reporting game.”

Director of U.S. Payroll Operations
Insight e-Tools Client

GOING GREEN has become a hot topic in the corporate world as more and more stakeholders are demanding companies take more environmental and social responsibility for their company's actions. In response, many companies are implementing green initiatives to incorporate sustainable practices into their daily business routines.

Insight e-Tools has helped many companies go green by simply switching from paper reports to online reporting. Not only are these companies able to save hundreds of trees, the cost savings has also significantly increased their bottom line!

The adoption of Insight e-Tools means you save paper. To calculate the positive impact you can have on the environment, please see: www.insightetools.com/gogreen
