

# Total Compensation Statements

## Total Compensation Statements Made Easy with Insight e-Tools

Employees are a company's greatest asset which is why it's important to let them know they are valued. Total compensation statements show not only how much is spent on their salary, they include benefits, taxes, and employer contribution information as well. That's why ADP has teamed up with Insight e-Tools to solve the daunting challenge of compiling all of the data necessary to create meaningful total compensation statements.

*Regardless of the ADP payroll platform or location of supplemental employer cost data, Insight e-Tools...*

- Imports the necessary data from each data source
- Consolidates it into a single format
- Produces attractive, print-ready reports

*... allowing HR managers to easily provide total compensation statements to all of their employees.*

**“Insight e-Tools total compensation statements are a great addition to our ADP payroll services. Thanks to them, we now have an easy way to show our employees just how much we value their hard work.”**
